ABOUT ME

I am currently pursuing a Master's in Artificial Intelligence and Machine Learning at the University of Limerick. I have over two years of software engineering experience in Java and related technologies. With strong analytical and technical skills, I collaborate effectively with cross-functional teams and I am eager to apply my expertise to deliver impactful AI-driven solutions.

TECHNICAL SKILLS

Languages	Java, Python, TypeScript, SQL
Technologies	Spring Boot, Microservices, REST APIs, Event-Driven Systems, React.js, Next.js
Databases	MySQL, PostgreSQL, Oracle, MongoDB
DevOps & Tools	AWS, Git, Docker, CI/CD (GitLab, Jenkins), Redis, Apache Kafka
Systems & Concepts	Distributed Systems, SDLC, Agile/Scrum, AI & ML
Testing	JUnit, Mockito

RECENT EXPERIENCE

Associate Software Developer InvisionXRStudios	Nov 2024 – Jul 2025 <i>Hyderabad, India</i>
--	--

- Developed and maintained scalable microservices using Java and Spring Boot, improving performance and reliability in production systems.
- Built and integrated RESTful APIs with secure authentication (OAuth), supporting high-volume data processing workflows.
- Collaborated in Agile teams, participating in sprint planning, code reviews, and production support.

Associate Software Developer Mavonic	May 2024 – Aug 2024 <i>Thane, India</i>
--	--

- Developed full-stack applications using Spring Boot and Next.js, contributing to scalable microservice-based architecture.
- Participated in testing, debugging, and maintaining application quality using SDLC best practices.

PROJECTS

Skill-Gap Analyzer - AI-Powered Resume Intelligence Platform. Designed and developed an end-to-end machine learning application that analyzes resumes and predicts suitable job roles using NLP and BERT-based classification models. Built an intelligent recommendation system to identify missing skills and suggest relevant upskilling areas based on predicted career paths. Deployed the solution on AWS SageMaker with scalable inference endpoints and integrated the application into a production-ready cloud workflow.

Bathsense - Quotation Generation System. Developed a quotation and product management platform for bathroom fixtures including faucets, showers, basins, and water closets. Built separate internal and external user perspectives for streamlined product browsing, quotation generation, and operational efficiency.

EDUCATION

Master of Science – Artificial Intelligence and Machine Learning University of Limerick, Ireland	Sept 2025 – Present
--	---------------------

Bachelor of Technology – Computer Science and Engineering JNTUH	Aug 2018 – Aug 2022 CGPA: 7.03/10
---	--------------------------------------
